

OMEGA BLUE SOLUTIONS

CAPABILITY STATEMENT

Problems Solved. Solutions Delivered.

SDVOSB
SBA-CERTIFIED

COMPANY OVERVIEW

Omega Blue Solutions is an SBA-certified service-disabled veteran-owned small business (SDVOSB) delivering mission-critical infrastructure for federal agencies, defense programs and prime contractors. Our team has supported surveillance and monitoring systems for DoD missions since 2010. We founded Omega Blue in 2017 to bring that field-tested reliability to the whole stack: the platform and sensors, and the cabling, network and security behind them.

CORE COMPETENCIES

ISR & Surveillance Systems

- Aerostat and tower deployment, operations and maintenance
- Sensor integration: EO/IR FMV, radar, SIGINT/COMINT, RF detection
- Ground station build-out and C4ISR integration
- 24/7 operational support

Network Integration

- Multi-vendor, multi-protocol integration
- Legacy system modernization
- Secure communications and real-time data systems
- Performance optimization

Custom Cabling & Fiber

- Custom cable assemblies, any length or specification
- CAT6/6A copper and fiber design, installation and termination
- OTDR testing, Fluke certification and documentation
- Built to BICSI and TIA/EIA standards

Cybersecurity

- Security assessments
- Policy development and compliance frameworks
- Risk mitigation and remediation planning
- Incident response planning

DIFFERENTIATORS

- **One accountable team for the whole stack.** Platform, sensors, cabling, network and security under one contract and one point of contact.
- **Military precision, civilian speed.** Decisions in hours and deployments in days, without the bureaucracy.
- **Field-tested.** Experience at forward operating bases and remote sites, CONUS and OCONUS.
- **Cleared personnel.** Team members hold active Secret and TS/SCI clearances.
- **No minimums.** From one custom cable to a full site deployment.
